### **Beta Machinery Analysis names Larry Foran as Business Development Manager, US Pipeline Market**

**August, 2010 – Beta Machinery Analysis** welcomes **Larry Foran** in the new role of Business Development Manager, US Pipeline Market. Larry will lead BETA's compressor station design, optimization, monitoring, and troubleshooting initiatives in the US. He looks forward to working with customers to deliver optimal solutions to their machinery problems.

Larry has been involved in the compression industry for nearly three decades, working as a Director of Sales with Cooper Energy Systems (a division of Cameron Compression). He managed customers and sales teams in Houston, Singapore, England, and Canada. Along with his engineering degree, Larry has extensive experience with both reciprocating and centrifugal compressors, enabling him to work with customers to determine their needs and offer viable options.

BETA, established in 1967, is a global leader in acoustical/vibration studies for reciprocating compressors and has deep experience in compressor performance, troubleshooting, and reliability. Offices are in Calgary, Houston, and Kuala Lumpur.

Larry invites pipeline customers in the US to reach him by email [LForan@BetaMachinery.net](mailto:LForan@BetaMachinery.net), or phone 815-980-6749.
